

KINDERGARTEN

Sunway International School's Canadian (Ontario) Full-Day Kindergarten (FDK) Programme for Junior & Senior Kindergarten.

At SIS, learning takes place through hands-on learning, particularly play-based learning. Exploration, play and inquiry are incorporated into young children's learning and the programme.

Play-based Learning

Children are naturally curious, and every child is unique. In a guided and controlled safe space, they explore the world around them by experimenting with different materials such as blocks, paints and fine motor skills manipulatives. They learn to handle and manipulate different objects, allowing them to learn kinaesthetically as they learn through play.

KINDERGARTEN

KINDERGARTEN DEVELOPMENT FOCUS :

BELONGING & CONTRIBUTING

Develop a sense of belonging & figure out how to contribute to their families and classroom relationships.

SELF-REGULATION & WELL-BEING

Learn to understand feelings to help them adapt to new situations, empathise, and understand how they can control their actions and emotions.

DEMONSTRATING LITERACY & MATHEMATICS BEHAVIOURS

Improve communication skills, vocabulary, mathematical thinking and reasoning to build a strong foundation academically through play-based learning

PROBLEM SOLVING & INNOVATING

Learning through play, exploration and inquiry helps nurture their problem-solving skills, ability to innovate, and think creatively, analytically and critically.
