SIS MATTERS

SUNWAY CITY KUALA LUMPUR
AUG/SEPT 2022

**Are you ready
for CHANGE?**

PRINCIPAL'S MESSAGE

PRINCIPAL

Heath Kondro

heathk@sunway.edu.my

SIS Community,

I want to say welcome back to all returning families and students and offer a very warm welcome to all new families and students. We're thrilled to have you all be part of our community. As well, after a busy recruiting season, I welcome our seven new teachers joining our staff. The end of each term brings the departure of some staff, but as always, the arrival of new staff brings a great deal of excitement, experience and energy to the school and given the international experience of these Canadian teachers, I have all the confidence that they will be great additions to SIS.

We have an exciting semester ahead of us as we enter our final months in the current SIS buildings and prepare for our move to the new USJ campus. My most recent campus tour was very exciting and according to the construction officials, the builds will be ready for the launch of classes in January 2023.

In addition to the new teaching staff that has joined us in July, I would like to make a special introduction of Ms **Mary Rivers** as our Elementary/Primary Coordinator. With many years of international experience as well as administration roles at international schools here in the Klang valley, Ms Rivers joins our Administration Team and will serve as our key contact for all areas of the elementary division of the school. She will assist in staffing, procurement of supplies, communicating with prospective parents/students and will serve as the educational leader within the Elementary team.

Finally, I am happy to announce the expansion of services at SIS with a dedicated Special Education department. Proper attention and specialized services to support students with learning challenges has long been an underserved area in many international schools and we look forward to adding this area to our community. For many months, we have been working with external consultants to prepare for this exciting initiative which will primarily serve students in our Elementary/Primary division starting January 2023.

Looking forward for an exciting semester ahead. Wishing you and your family health, happiness and success.

Thank You!

DEPUTY PRINCIPAL

Michael Owen

michaelo@sunway.edu.my

Only One Semester Remaining Before Beginning a New Chapter in SIS History

The July 2022 Semester began with a great deal of energy, excitement, and expectations as we continue to see positive changes in school operations. On the first day of classes, we were surprised to see the lowest number of online/hybrid students with most of our classes at or near 100% face to face teaching and learning! This presence of both students and staff have had very positive effects on the overall sense of community within SIS.

Another important change is the relaxation of COVID SOPs that has permitted non-rotational schedules, allowing our students to start rebuilding connections with peers and teachers and permitting more of our extracurricular activities (ECAs) to return. I am more than happy to announce that there are over 40 active ECAs from Monday through Friday ranging from athletic, artistic, social, and community focused activities. It is particularly exciting to see our athletic clubs active once again - giving our students important opportunities to participate in physical activities, learn important skills, and have opportunities to work within teams and take on leadership roles.

We also have 7 new teachers joining us this semester along with two new administrative staff. I would like to welcome Ms Elaine Gee Mun Theng to the SIS Administration Office, and Ms Niranjana Arullappan to the Guidance Office. Joining our Middle School are, Mr Alex Doucet teaching Grade 6 & 8 Science, Mr Jamie Sauve teaching Grade 7 Science and Grade 6 Physical Education, and Mr Steve Latham teaching Grade 7 & 8 Physical Education. The High School welcomes Mr Al Jivraj teaching Grade 10 & Grade 11 History, Ms Alishah Virji teaching Grade 10 Drama, Ms Katherine McLean teaching Grades 9 & 10 English and Grade 10 Civics/Careers, and Mr Ralphie Carnahan teaching Grade 9 Geography and Grade 11 English. If you happen to meet any of our new teachers and staff, please help make them feel welcome at SIS!

Finally, there is much anticipation and preparation underway for the relocation to the USJ campus. Soon we will begin the initial stages of moving furniture, equipment and resources from our current location to the new campus. Our Operations team is working very hard to make sure that this important job is completed with minimal impacts on our current semester.

These last two years have seen incredible challenge and changes and our community members are now enjoying a closer sense of community and normalcy as we prepare for another transition. This new change will provide its unique challenges but with even greater opportunities and I view this as a signal for a better and brighter future for SIS!

Welcome to our new SIS students and welcome back to returning familiar faces! I hope to see all of our students who are currently residing in Malaysia attending in-person classes, assemblies, and extracurricular activities as much as possible this semester. While our teachers and students have demonstrated remarkable adaptability, ingenuity and resiliency with online formats for many activities during the pandemic of the past two years, I cannot stress enough how important face-to-face attendance is for the social-emotional growth and wellbeing of our students moving forward.

You may have noticed the addition of a Friday Advisory (Friday Flex) and Friday Break on high school (Grades 9-11) timetables. On a weekly basis, high school students will meet with an assigned group of peers. With the help of teacher advisors, students will partake in team building exercises and receive grade-specific communications regarding events, Ontario Secondary School Diploma (OSSD) requirements, etc. from various SIS departments.

Please mark Thursday, 29th August on your calendar for Parent Teacher Interview. We look forward for parents and guardian to interact with your children teachers on their progress over the semester.

**ACADEMIC
COORDINATOR**

Sylvia Kwong

sylvia@sunway.edu.my

**IBDP
COORDINATOR**

Mark Milberg

markm@sunway.edu.my

I love the enthusiasm that always fills the school when a new semester starts. Our Year 2 students are currently finishing their Extended Essays and TOK essays and starting to apply to universities. As with every cohort, we have some students applying to UK universities, some to Australian universities, some intending to study here in Malaysia and some targeting Canada, the USA and our neighbour, Singapore.

The two-years IBDP program culminates in a series of external exams (both developed and marked by IB's examination board); these exams will start on 24th October and end on 11th November. Then, we celebrate and continue to help students with their university applications!

The students in their first year of IBDP are now beginning Semester 2, and they have started their Extended Essays, started their CAS Projects and decided which courses to take at the Higher Level.

Our next IB intake will be in January 2023 and Grade 10 students who are interested in joining IBDP can start applying now. The application form is available at the Admin Office and there is no application fee for existing SIS students. We will have a few different events between now and December to help prospective students (and their parents) become more familiar with IBDP. Keep checking the school's social media to find out the dates of these events.

SIS School Uniform Design Competition - Finale

Team Project Sun emerged as the Champion of the Grand Finale of Sunway International Schools' Uniform Design Competition, after more than six months of brainstorming, patterning, stitching and styling. Team Project Sun from Sunway International School Sunway City Kuala Lumpur campus walked off with a cool RM2,500 and proud certification of achievement, acknowledging their sweat and toil to design the look of the new attire that Sunway International Schools (SIS) students will be donning in 2023.

Their effort was acknowledged at an awards ceremony today. The design collections were previewed with a fashion runway showcased at SIS campus at Sunway City KL. From the shortlist of seven teams for the competition, members of Team Project Sun (Wong Hou Nam, Kim Bandi, Isaac Tan Guan Lum and James Christopher Lahey) snared the cash prize and congratulations all round from the judging panel who comprised several leading figures in the Malaysian fashion making and design scene.

The 1st runner up and 2nd runner up teams that have been awarded certificates and cash prizes amounting to RM1,500 and RM1,000 were Team Sakura Sunwies from Sunway City Iskandar Puteri campus and Team Luxolis from Sunway City Kuala Lumpur campus. A special People's Choice Award was won by Team Sunwayens from SIS Sunway City Iskandar Puteri. The winning team was determined by public online votes. Other teams namely Blue Donkey, Chan and Shuan Q each received consolation prizes of RM250.

"Modern school uniforms are so much more than about utility and durability like how they were in the past. Because uniforms are daily wear, we must consider students' comfort and their need to carry out a variety of lifestyle activities," states Professor Elizabeth Lee, the Chief Executive Officer of Sunway Education Group during the grand finale to announce the winners. Aside from Professor Lee, the judging panel also comprised prominent fashion industry luminaries who sat down with educators from the Sunway Education Group, to examine the teams' outputs during the finale.

The judges include Dato' Nancy Yeoh-Reissiger, President of fashion event management agency STYLO International, as well as Toi See Luon from Zang Toi's Boutique and Café in Kuala Lumpur. With 154 contestants and 45 teams, the competition was a unique opportunity for students, families, and communities to come together for this challenge. To add value to the contest, a Design Workshop was held in May to guide and provide tips to participants, particularly inexperienced junior students. The session was facilitated on Zoom by former SIS student Meghna Sharma, who completed the Canadian International Matriculation Programme (CIMP) at Sunway College Kuala Lumpur after, and later graduating with a fashion degree from Nottingham Trent University UK.

"They had some marvellous ideas, and some even knew interesting ways to produce fashion makeovers. But to translate them into viable clothing, contestants needed feedback for their designs. I hoped they found the workshop helpful," shared Meghna, who was also Puteri Indonesia North Sumatera in 2020. The initial preliminary screening and scoring of team submissions was conducted in June using digital interactive platforms. Another judge, Augustine Wong, Director of Programme at Sunway-Stylo Fashion Design & Technology at Sunway College, said the entire process was rigorous.

The new uniform will be implemented from January 2023 in conjunction with the launch of the new logo of Sunway International Schools. It will also be proudly worn by students attending the massive new SIS Sunway City KL campus, a 8-acre purpose-built learning institution. The new look also signifies a moment of pride for the school's attainment of GreenRE (Green Real Estate) certification.

"This competition celebrates the uniqueness of SIS's teaching and learning or curricula," said Dr Cheng Mien Wee, the Executive Director of SIS. She also added that this competition served as a learning opportunity for contestants, as they could acquire basic design knowledge and skills via the facilitator-led workshops and then apply what they learned into curating their respective uniform designs. Elizabeth Wong, the chairperson of the SIS Sunway City Kuala Lumpur's Parent Council, also the Founder of Malaysia International School Parents Support Group (MISPSG), believed this was a good community initiative that saw encouraging support. The main material sponsor for the competition was G&G Creations Sdn Bhd, whose owner Goh Chi Huat graciously sponsored outfit tailoring for all the seven contesting teams in the finale event.

Gold - Reader's Digest Trusted Brands Award Ceremony

It was a night of celebration for Sunway International Schools at the 2022 Reader's Digest Trusted Brands Award Ceremony on 14th June. SIS brought home the GOLD Award for Private and International School Category!

This is SIS's 6th year winning the award and the school thank, parents, students and community for continuous trust. SIS vows to continue providing the best education for the students.

IB Exploration Day

On 27th August, more than 100 people gathered at the SIS Hall to learn how the International Baccalaureate Diploma Programme (IBDP) prepares students for success. The half-day IB Exploration Day was a one-stop discovery day which included panel discussions, IB experiential workshops and one-on-one counselling to feed the curiosity of parents and students on this pre-university programme.

Families had the opportunity to meet and speak to the IB Coordinator, teachers, and alumni to have a better understanding of the advantages the IBDP can bring. 2020 Valedictorian Sara Kosumi and 2021 Valedictorian Lim Yong Bin joined the event via Zoom to share their first-hand IBDP experiences and how the rigorous programme prepared them for university and life beyond.

If you missed the IB Exploration Day or have questions about the IBDP, feel free to send an email to sisadmin@sunway.edu.my OR speak to the IBDP Coordinator directly.

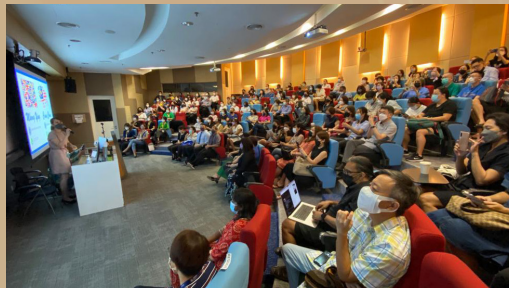

Parent Breakfast Session

SIS-Parent Council in collaboration with SIS and Sunway Education Group brought back the Parent Breakfast Session to the SIS parents community on 19th August.

This Parent Breakfast Session focused on topics regarding academic pathways after SIS Grade 11 such as Ontario Secondary School Diploma, IBDP, and other Pre-University programmes available at Sunway College KL.

The Parent Council also invited Mrs Hor Poh Choo, the Associate Director of the International Office to share more about the university applications and study abroad options. The hall was filled with parents who took time out of their busy schedules to come and understand more about their children's pathways.

Friday Flex for High Schoolers

Friday Advisory (Friday Flex) was introduced this semester as a new community-building initiative for both new and returning high school students. The past two years have affected students socially and emotionally and the primary purpose of Friday Flex is to allow students to build connections and relationships with each other and their teachers.

Activities such as community building, discussions on student progress and achievement, homework checks, guidance and academic support as well as various activities are planned for the semester in hopes of allowing us to continue to build a sense of community at SIS.

Happy World Environment Day!

In conjunction with World Environment Day, SIS Sunway City KL collaborated with Sunway Future XFarms to organise activities for Middle School (Grades 6 - 8) students on 31st May.

Students learnt how food is being grown, why it's important to support local farms, and how they can support sustainability based on their daily decisions and actions. Besides that, they also tried some plant-based food and worked together to create recipes in groups.

The journey to live a healthy and sustainable life starts now.

Meet the Elementary Coordinator Ms Mary Rivers

Welcome to SIS, Ms Mary Rivers! Ms Rivers is the newly appointed Elementary Coordinator who joins SISKL to lead the kindergarten and primary school programmes beginning in January 2023. With her vast experience, Ms Rivers holds a Bachelor of Education (Teaching - Primary) and brings over 20 years of classroom and curriculum experience and close to a decade of leadership experience.

Ms Rivers is already on campus with the rest of the SIS Community and has hit the ground running. In under a month after starting at SIS, she has already had a Meet & Greet session with families that registered their children for kindergarten and primary school. During the session, Ms Rivers shared what she has planned for the new school year and what lessons will be like for the children.

Held on 19th August, the Meet & Greet session with Ms Rivers was held online via Zoom to cater to the international families who are still in their home countries and have not entered Malaysia yet. Families could find out more about the curriculum and assessments, safety and well-being policies, innovation and technology, how the new campus will be used and more. They also met the deputy principal, Mr Michael Owen, and could speak to Ms Rivers and Mr Owen about the school culture, teaching and learning, and directly ask questions they had about next year.

100 Days of School

It's the little things that count on 26th August, and who knew for the 100 Days Celebration, SIS would be thankful for the weather!

Here's a little message from Deputy Principal Mr Owen about the event: "Predictions called for scattered thunderstorms that week, and while it was overcast, humid, and damp, the 100 Days Celebration for the Middle School was a great success! This was the first time the Middle School students were able to get outside and celebrate their 100th day of classes since the last one before the pandemic in 2019!"

A huge thank you to Mr Coakley and Mr Sauve for organising this event and to all Middle School teachers for making the day a fun time filled with laughs and cheers for all students!

GreenRE Award

Congratulations to SIS Sunway City KL for achieving the GreenRE's platinum Certification (Provisional) for the new 8-acre campus at USJ 1, Subang Jaya.

Mr Heath Kondro represented Sunway International School to receive the GreenRE Platinum Project plaque during the Green Build Conference on 14th July 2022.

The new campus is slated to open in January 2023 and SIS is proud to be the pioneer in building a sustainable and green educational environment.

Kindergarten and Primary Info Day

With SIS Sunway City KL's youngest students ever set to join the school in January 2023, the Kindergarten & Primary Info Day was held to introduce the Canadian kindergarten and primary school programmes to families. Teachers Ms Sarah and Ms Chandre from SIS Sunway City Iskandar Puteri (Johor) conducted trial lessons for the young ones to experience the interactive learning that will take place next year.

The Inaugural Bursary of RM10,000 is still available for Kindergarten & Primary School (Grades 1-5) applications received by 31 December 2022. For more information, contact the school at sisadmin@sunway.edu.my

CONGRATULATIONS ATHLETES!

What do you love most about SIS?

- I chose SIS because of its unique course structure which focused on 70% coursework and 30% on exams. Coming from a Chinese public school, I did quite poorly getting mediocre results at best because 100% of my grades depended on one final exam. Thus, when I was exposed to the Canadian programme, I was thrilled because the focus was more on coursework such as my assignments, class participation, group work, quizzes, and more. It was truly different as I was able to excel in other ways instead of purely depending on one final exam.

#PeopleofSIS

JUSTIN KUAN

Justin joined SIS in 2015 and graduated in December 2019. He is currently studying Business Administration programme at the National University of Singapore (NUS) since August 2021.

What do you love most about SIS?

- Being in Sunway for over 6 years, I was always supported by my teachers and guidance counsellors which always provided students with meaningful advice in choosing tertiary education pathways. With a diverse curriculum, my time in SIS exposed me to a plethora of subjects such as science, business, language arts, photography, drama and more. This ultimately helped me find my passion which aided in my choice to further my studies in Business Administration.

What are the things/memory you most grateful/cherish for at SIS?

- Memories I will never forget are the sporting events in SIS. Playing on the basketball team, I truly enjoyed the times we had home games in the SIS Hall which we nicknamed the "Bear Cave" in accordance to our school's mascot, the sun bear. When students from different years came to support and cheer for our teams, it was always a nerve-wracking feeling but I will never forget the school spirit and camaraderie I felt.

Any advice/words for your juniors at SIS?

- You don't need to have everything figured out right now. High school will be one of the best times of your life where you explore and find your interest, as well as make some of the closest friendships you will have. Ultimately, the destination is important but don't forget to enjoy the journey along the way.

"I remember Mr Kondro saying that one test does not define you and your level of understanding, a test is just a way to see how well you can retain information. I felt that this was truly one of the best advice that I've heard and is something I still remember until today."
